To whom it may concern

By this letter I want to appeal for Bhagwan Shree Rajneesh to be allowed to live and work in the USA.

I am a professor of theology teaching sociology of religion at the University of Münster, at this moment I am the Dean of the Department of theology at that University.

Personally I do not know Mr. Bhagwan, but I heard and read many about and of him. Some of my friends are members of the Bhagwan movement and they made me appreciate most of his religious thoughts and ideas.

I think Bhagwan and his movement to support the humanistic ideals of personal growth and of peace and I am sure they never will vote or work for making war.

Therefore I would like Bhagwan to be allowed to stay and live in the United States of America.
