2. Knowledge of Bhagwan Sree Rajneesh

I have known of Bhagwan Sree Rajneesh for the past 4 years, initially from cassette tape recordings of his lectures, then from his published books, video cassettes, and more recently from occasional exchanges of letters.

3. Bhagwan Sree Rajneesh's International Renown and Ability

I regard Bhagwan Sree Rajneesh as a truly universal genius who has cast new light on the special psychological problems of crosscultural communication and human development.

Personally, I have received continuous inspiration and intellectual and spiritual challenge from him, which have been material in raising the quality of my own thought as well as the quality of the training programs that I design and execute. It is no exaggeration to say that the programs that I conduct are helping to contribute to a world of fuller understanding and international friendship, and that Bhagwan Sree Rajneesh's influence on these is considerable.
