To Whom It May Concern

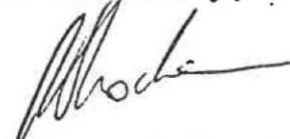

This letter is a statement of acclaim of my personal admiration for, and trust of the exceptional abilities of Bhagwan Shree Rajneesh as a spiritual leader and religious teacher.

I am a doctor of medicine, registered in New South Wales currently practicing Accident and Emergency medicine in casualty section at St Vincents Hospital, Sydney. Having seen the effects of the teachings on the way of life of sannyasins for the past 2½ years I have absolutely no hesitation in expressing the greatest admiration for a man who is surely the greatest religious leader of our time.

As far as my own field of health care is concerned my observation of the effects of Bhagwans work on his followers has shown his techniques of meditation and worship to be the most effective I have ever come across as treatment for the 'plagues' of modern day civilization (viz. stress, anxiety, hypertension, heart disease, arthritis and premature ageing).

This modern day sage has a vital message for humanity which only those blinded by hatred, bigotry and arrogance will fail to see and understand. It is only rarely that such a man of exceptional ability, indeed an enlightened Master appears on our earth. To exclude Bhagwan and his teachings from your country is to miss the greatest opportunity that you will ever have in your lifetime.

Yours sincerely,

Dr. Robert S Crocker.
