To Whom It May Concern:

History will credit Oregon with being the home of Bhagwan Shree Rajneesh in the same way that it is remembered that Sigmund Freud lived and worked in Vienna, if he is allowed to make Oregon his permanent home.

As a close associate of the late Eric Berne, M.D., I have the highest respect for Bhagwan Shree Rajneesh's exceptional ability in the field of psychology. I learned from a near-master, but Bhagwan's understanding has inspired my work anew. He is a positive influence in the psychospiritual synthesis that is occurring.

I lived in Oregon in the 1970's and know that the State has some far-seeing policies. For the health of this good man and the world, please allow him permanent residence.

Carolyn Crane
