TO WHOM IT MAY CONCERN:

As a Psychologist and a former consultant to the Council of Europe in the field of Innovation in Education, I wish to draw your attention to the unique contribution of Bhagwan Shree Rajneesh.

The process of innovation is of vital importance in all our social institutions: lack of innovation leads to stagnation. No one has done more than Bhagwan Shree Rajneesh to inject new vitality into the western tradition of psychology and education by creating a synthesis of the best in eastern and western research and practice in these subjects. And his contribution has direct practical relevance and applicability in a wide variety of fields ranging from group psychology and therapy to basic education.

Sincerely yours,

George Gross
