Copenhagen, July 1983.

To whom it may concern,

As a naturopath trained in California I have come to know Bhagwan Shree Rajneesh through my contact with therapists and doctors within alternative medicine. I have visited the meditation centers Geetam in California and Sambhodi in Boston and participated in many courses during the last three years. I have been greatly inspired personally as well as in my work both by the courses and by Bhagwan's books, and not least by the high standard of those sanyasins working within the alternative therapies.

Living and working in Copenhagen I have a close contact with the Rajneesh center here and I refer many of my clients to therapists working there.

Lecturing and participating in conferences in the U.S.A. as well as in England I meet many outstanding people within the fields of science and arts, and it is my feeling that Bhagwan and his disciples have been a source of inspiration to many of them.

Bhagwan's contribution to mankind will be an asset to any community and country in which he may wish to settle as a teacher and spiritual leader.

Sincerely,

EXHIBIT "A-296"
