To Whom It May Concern:

I had the pleasure of being at the Rajneesh Ashram in Poona, India the end of February to March, 1981. My purpose was to touch with Bahgwan Shree Rajneesh in person to witness the wisdom of this man. I read his books and found the material to be the best on the planet. His wisdom has given me a greater understanding of the self; it has made a better person of me. I have a greater understanding of religion, the nature of consciousness, the loving attitude of all life.

I am an instructor in parapsychology at the Wayne County Community College, Detroit, Michigan. I am Director of the Michigan Metaphysical Society, in existence 15 years. Also, Director of Meta-Hypnosis Research Institute; teach the medical profession and related healing arts and serious lay students in the art and science of hypnosis -- this I have done for the past 35 years. Instructor also in awareness classes; and research into the mind. I hold a degree in religion and Doctor of Divinity in 1971. Received a great deal of information and growth through the teachings of Bhagwan Shree Rajneesh.

His presence in the U.S.A. will only enhance the understanding of man to live together harmoniously. The opportunity to allow people of all races to come to America for this knowledgable person will be a plus for the U.S.A. His ability to express on all subjects is an aid not only to my specialty but to all professional personnel.

With Kindest Regards,
