27, RUE DE L'HIRONDELLE - PARIS-6^e

TÉL. : 325-27-75

Paris

15/7/83

This is to certify that I,
D^r Pascal Grellety - Bosviel, Doctor
of Medicine of the Medical School
of Paris, having interned at the
Middlesex Memorial Hospital, Middeltown
Connecticut - Yale University - (1957-59)
At the present time director for energy
at the French Red Cross, certify to
have spent 2 months at the ashram
Rajneesh at Poona (India) during the
month of June July 1979, accompanied
by my wife, a nurse, and my son
During these 2 months we had the
privilege to follow the teaching
of Bagwan and to participate in

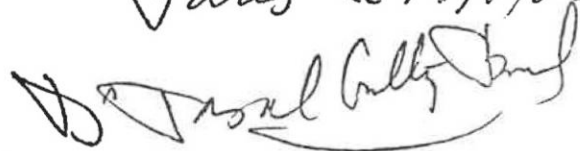

the activities of Bagwan and to
participate, in the activities of the
community: lectures in the morning of
Bagwan Rajesh, meditations, groups
therapy, artistic groups of international
game.

The 2 months spent there were very
enriching for us both spiritually and
educationally.

Being a doctor, I can certify that
the teaching and group therapy was of
a very high medical value, difficult
to find in Europe.

Since my return to France 2 years
ago, I have continued to participate
in the activities of the French
group of Rajesh and find
them very beneficial.

Paris le 15/7/83

 Daniel Gully
