TO
WHOMSOEVER
IT MAY CONCERN

I, Babu Ram Gupta, residing at 24-A Gidney Park, Pune - 411 001 do hereby state as under :

THAT I have been listening the taped discourses of Bhagwan Shree Rajneesh for last 2 years. I find that these discourses lead to the real religiousness to anybody who listens them meditatively. My feeling is that Bhagwan Shree Rajneesh is preaching the religion which is very much concerned with the human beings of this century. All other traditional religions are based on some sort of superflousness but Bhagwan Shree Rajneesh preaches the religion which is based on understanding and rationalism. He finds beautiful religious quality throughout the old religions but at the same time attacks very severely which is just dead and traditional in such religions. According to me he is the real religious teacher who can lead the humanity to right religious quality. I also feel that for the benefit of human kind at large he should be honoured in each part of the world and be studied minutely so that if one finds something worth for his life will be able to practice the same. I am sure millions and millions people will find light through such studies.
