OPINION ABOUT BHAGWAN RAJNEESH :

Date: 23rd July 1971

I knew Shri Rajneeshji since last fifteen years. When he was in India he used to deliver lectures at various places. I have heard his lectures quite a number of times. Thousands of people used to come & listen to his discourses.

As far as I am concerned, I am proud to state that I have been benefited to a great extent by listening & putting in practice his philosophy & teachings. My friends, who are non-sanyasis are also sharing my views.

His greatest contribution to the entire mankind & the present complex society is the meditation techniques. He has developed a number of different types of meditation techniques which are useful for everybody in ones day to day life.

Psychologists say that man is a poly psychic animal. Every individual differs in a number of ways from other individuals. Spiritual level of every person is different from other person. That is why one uniform type of meditation cannot be prescribed for all; on similar lines that one uniform medicine cannot be prescribed for a number of diseases. That is why, he suggests that you should choose the type of meditation which suits you.

United States has allowed a number of Gurus & Masters & Teachers uptill now from India. Every teacher has emphasis on a particular type of philosophy & a set meditation system. However with Bhagwan Shri Rajneesh I would like to say, he is prescribing correct type of meditation, taking into consideration his personality & his overall level in spiritual matters.

Industrial houses in Japan are also now convinced about the advantages of meditation. That is why many of them have made it a practice of compulsory meditation for their top executives & policy makers.

Since I have listened & put in practice his teachings & his system of meditation, I am pleased to State that as I have been benefited, so also, he who-so-ever would practice his teachings, would be benefited to a very great extent.

I am of the opinion that in the present complex political situation, the entire mankind is sitting on a volcano, which can erupt any time & at any moment. The volcano is so powerful, that the entire mankind can be destroyed. That is why, this is a right time when great masters like Bhagwan Rajneesh can help save the mankind from the present disaster.

In my opinion therefore, it would be worth while for all, to understand & put in practice the teachings of Bhagwan Shree Rajneesh.

Yours faithfully,

G. K. Lungejiya
