To Whom it May Concerns,

My name is Jean-Noël Reichel and the fields in which I work are Art, Communication - Press-Edition-Advertising.

I am considered one of the most important photographers in Advertising Communication in Europe.

I had the good luck of knowing Bhagwan's work about 5 years ago through friends (books, music and video).

The opening that gives the knowledge of Bhagwan's work gave me a well-being to myself and a richer contact with the world. The trip I made to Rajneeshpuran confirmed my feelings about an efficient work, and an organization totally adapted to the problems of today.

For me, Bhagwan is one of the Spiritual Masters who had known better how to adapt his spirituality to the changing social problems of everyday's life.
