To whom it may concern,

This is to confirm my admiration for the teachings of Bhagwan Sri Sri Rajneesh.

As a set designer and director for theatre my great folio covers productions performed in cities like New York (where I was holding a grant), Philadelphia, Paris, Amsterdam besides my work here in Berlin and West Germany.

I also qualified as a training person for actors and dancers, that for the University in Berlin listed me as a guest teacher. Through my work and the guidance of many people, who passed through my classes I got in touch with the

findings of the above mentioned  
person, who today I accept  
and highly recommend as one  
of our most important philologists
