To whom it may concern

During my 37 years of life, I have lived many
many different experiences - I wrote some books, I did
researches about biology, I wrote and did many
things in the theatre - I loved and I love philosophy
and music. But without any doubt one of my most
interesting and deep experiences has been my double
meeting with Indian Master Bhogwan Shree Rajneesh
first with his writings and then with him.
I want to precise that I'm not a disciple of his, =
my opinion is not influenced by mystic reasons.
But I have to recognize that from his writings and
above all from the power of his personality, one
has truly the impression to be in front of a Master.
Now it is not necessary to believe in him, but
I think that everybody must respect him.
