

July 21, 1983

TO WHOM IT MAY CONCERN:

Since 1972 I have been building and designing custom residential homes. I received my Master's Degree in 1976 from Archigram, School of Architecture and Urban Planning in London. I have worked with Professor Dr. Karl Schwanzer in Vienna in 1975 as a guest architect and, was invited to teach Architectural Design Theory at the University of Vienna. Since 1976 I have my own practice in Laguna Beach and Los Angeles, California.

About 3 years ago I saw a videotape of Bhagwan Shree Rajneesh. I was very impressed by his teachings and his deep insight, his intelligence and his sense of humor. He is a man with exceptional ability to bring us an understanding of the mystic heritage of the east and combine it with the intelligence of the west.

He has helped me and hundreds of thousands of people to understand the complexity and contradictions of the modern times we live in. I sincerely believe he is a remarkable man in the history of the 20th century - next to Buckminster Fuller and other non-political leaders.

He is already an essential part of the free spirit of our country.

Sincerely yours,
