TO WHOM IT MAY CONCERN

Music is in my blood and soul. As a singer and composer I have gained National and International Fame, having been on umpteen professional visits all over the World.

Being a singer, I am no stranger to meditation which is an inbuilt quality in the authentic expression of music.

Bhagwan Rajneesh, however, has added a new dimension to my talent. Hearing his soft rhythmic voice extolling me to convert the search for glory into an explosion of joy has opened new vistas of Life for me. I sing better and enjoy doing it without expecting any flattery, fame or flush of success. In fact that is, in a nutshell, Rajnessh's message - Do whatever you are doing with totality and enjoy doing it.
