TO WHOM IT MAY CONCERN

Mrs Jole Ballarini - doctor -
graduated at Padua University in
1974 - psychiatrist at the
Mental Hospital in Collegno
(Torino). I state that I have
got to know the techniques
of the Indian Master Bhagwan
Shree Rajneesh in 1978 through
a colleague, the Psychiatrist
Adriano Favore, director of
a department in the same
hospital. I have then exami-

med closer his thought by reading his books and by participating directly in several encounter groups. I state that I have experimented with his techniques daily on psychopathic patients getting unhoped results there where every other attempts from classic psychotherapy to social psychiatry had failed.

I recognize that Blepau's methods have given me the opportunity to put myself in contact with the truest parts of the human being - psychopath.

or not - with such an immediateness that the psychoanalysts get only after years of practice, and that Rajneesh's techniques have become for me a not replaceable instrument in my daily work

That's why I consider that the Government of USA, a country that has given birth to the to the chart of the Rights and has become the symbol of freedom for all the nations, cannot, if it wants to act coherently to the message that it keeps giving
