Dear Commissioner Nelson:

I am writing to request that you grant to Bhagwan Shre Rajneesh resident alien status.

As a clinical psychologist and a disciple of Rajneesh, I feel that he will contribute a great deal of worth to the United States. He is a true religious leader and has established innovative methods of therapy and techniques for human growth.

The Rajneesh religion values free enterprise and self-sufficiency. There is no recruitment of people into the religion nor is there any request for contribution. Monies are obtained through legitimate businesses.

For these reasons I feel that Rajneesh can be an asset in the United States and request that you grant resident alien status.

If you have any questions, please do not hesitate to contact me.

Sincerely,

*Anne-Marie Allen Ph.D.*
