July 18th '83

To whom it may concern,

I have been practicing
as a Jungian psychotherapist for the
past six years, in private practice.

I trained at the Westminster Pastoral Foundation
and the Institute of Group Analysis in London.

Since March '81 I became involved with
Bhagwan Shree Rajneesh, and in January '82
I was initiated as a 'sannyasin' (a follower).

In my opinion Bhagwan Shree Rajneesh is
an enlightened master. A man of exceptional
qualities, who has the ability to create an
atmosphere of love, openness and peace for
those around him.

His influence on me as a person, and

on my work with my patients has
been life enhancing and creative.

Yours sincerely,

Ma Anand Gala
