

Antwerp, 19th July 1983

To whom it may concern,

I readily consent with all the people who would like Bhagwan Shree Rajneesh to stay in Oregon.

About two years ago I came in contact with the Rajneesh meditation center in Antwerp. I followed a massage course there through which I released a lot of stress and sorrow.

As a teacher in language I experienced these last years a tremendous and growing amount of aggression, restlessness and inability to focus attention in my students. The individual growth programs provided in the Rajneesh meditation centers bring me towards more inner rest in which the patience and insight grow to keep in touch with young people in an open and stimulating way, without fear.

The presence of Rajneesh centres throughout the world brings well-being to individuals and groups. Higher levels of consciousness, rest, joy, friendship and peace are the results of the courses and therapies given under the impulse of Bhagwan Shree Rajneesh.

Therefore it would be a pityful and aggressive deed to refuse him his staying in Oregon. Since Bhagwan is a bringer of peace, his presence, his teachings and actions help individuals and nations to liberate themselves from blocks and aggression.

Yours sincerely,
Lieve Vlaminckx
Antwerp Belgium
