To Whom it May Concern,

Narada Distributing DBA AUM Books and Records is a retail bookstore specializing in the religious traditions of the world. We carry books on both eastern and western traditions and have been in business for the past seven years. One of the authors we have carried for the past few years is Bhagavan Shree Rajneesh. He is an Indian man and a spiritual teacher who has had a great and beneficial effect on many of seekers in both the east and west. For those not familiar with the spiritual traditions of the East it is difficult to understand ~~xxx~~ a person like Bhagavan. He comes from the tradition of Hinduism which is not just one specific religion but an amalgam of belief systems and teachings that have their origins in the pre christian era. It is a religion that fully intergrates spirituality and psychology as well as health and wellness and works, like most religions, to serve the needs of the entire person. I am not a student of Bhagavan but feel his teachings are beneficial and that his form of spirituality, though hard for most americans to understand, is pure.

Sincerely,

Wesley Van Linda
