Montreal,July 20th,1983

To Whom it may concern:

I would like to share with you my experience with Bhagwan Shree Rajneesh. In my opinion he is truly a great being, a very exceptional and precious one.And the U.S.A. is very fortunate to have such a being on its soil presently..

I heard about Bhagwan from his disciple Swami Leellananda, a well known philippino poet and university professor,Rolando A. Carbonell, from Manila.

He came to Montreal in 1978 to give a talk about his Master Bhagwan,and to teach some of Bhagwan's meditation technics.It was on his advice that I went to Poona,India to stay with Bhagwan for 3 months in 1978 and for 5 weeks in 1980.

I can only say, that it changed my whole life.I feel and look much younger then my 60 yrs.My memory, my working capacity have improved innencly. I am able to do much more and much better work, then before.

Little about myself.I am Cytotechnologiste, trained by Dr. George Papanicolau in Cornell Medical Center in New-York. I did some post-graduate work in Hotel Dieu Hospital,then 10 years in Maisonneuve Hospital in Montreal before my present job as Chief Cytotechnologiste in Jewish General Hospital Dept. of Pathology.My work consists of microscopic interpretation of human cells, for detection of cancer.It is a demanding and tedious work,wich can be very stressful at times.I definitely see much improvement in my health and my working capacity and it is definitely the result of my continuous participation in Bhagwan's meditation technics and his therapeutic groups.

Sincerely yours

L.Kroutchinina A.R.T.(I.A.C.)
