

Copenhagen, July 18, 1983

To whom it may concern.

My name is Kirsten Nørregaard, doctor of medicine from the University Of Copenhagen in 1976, and I have 5 years of clinical experiences from various specialities, at the moment specialising in Dermatovenerology.

I have heard about Bhagwan through psychotherapy and have myself tried out several of his meditation-techniques and listened to his tapes in connection with Satsang. He has a very special way to use the philosophy from the East so that it is suitable for our western cultures, and I believe I can learn a lot about life from listening to him.

Kind Regards,

Kirsten Nørregaard
