

On this day, the nineteenth of July nineteenhundred and --  
eighty three, appeared before me, Johannes Karstens, -----  
notary public, practising at Leiden: -----  
mister Johannes Leendert Mol, born at Rotterdam on March -  
twenty nineteenhundred and fourty six, Head of the -----  
application-development department of the Basis-foundation  
living at Leiden, de Mey van Streefkerkstraat 34.-----  
The appeared person declared: -----  
I am Johannes Leendert Mol, (callname Hans), born on March  
twenty nineteenhundred and fourty six at Rotterdam, The --  
Netherlands; -----  
my sex: male; -----  
my education: Gymnasium B (nineteenhundred and sixty four)  
Bachelors degree Mathematics and Physics (nineteenhundred  
and sixty seven) at Leiden University, -----  
Masters degree Applied Mathematics (nineteenhundred and --  
seventy two) at Leiden University. -----  
my work: Since nineteenhundred and sixty nine I have been  
working on the development of the NOBIN-EIS-project, a ---  
Total Hospital Information System, which is at present ---  
operational in about eighteen Dutch hospitals. -----  
I have worked as computer-programmer, systems-analyst, ---  
systems-designer and project-leader. -----  
At the moment I am head of the application-development ---  
department of the BASIS-foundation. This department -----  
consist of about fifty five people. -----  
Marital status: married since nineteenhundred and seventy,  
father of two daughters (four and seven years old). -----

Since about nineteenhundred and seventy four I took a -----  
deep interest in psychology and metaphysics and I have read  
a lot of books on these subjects, from very different -----  
sources. -----

When a known Dutch psychiatrist (Jan Foudraine) became ----  
a sannyasin of Bhagwan, I wondered what him made to do it.-  
I started to read books of Bhagwan, and I think I under- --  
stood Jan Foudraine. -----

Although I am not a sannyasin of Bhagwan, and I am not ----  
planning to become one, I am deeply convinced that Bhagwan-  
is an exceptional human being, and that he has a lot of ---  
positive influence on a lot of people in the Dutch -----  
society. -----

I can see that in Holland in the circles of the so-called -  
"intelligentsia", I can see that in the circles of my -----  
friends, and I can see that in my wife and myself. -----

The appearer is known to me, notary public. -----

This deed was executed in a single copy at Leiden, on the -  
day stated in the preamble of these presents. -----

After a statement of the essential contents of this deed to  
the person who appeared before me, he declared that he has-  
taken notice of this deed and that he does not desire a ---  
complete reading of it. Immediately after that and after a  
restricted reading of it, this deed was signed by the -----  
appearer and me, notary public. -----

J.L. Mol, J.Karstens. -----
