

Basel July 20th 19

To Whom IT may concern,

I am an American musician who for the past eight years has lived in Switzerland. My instruments are the Lute and Guitar and I now have extensive concert engagements in Europe and America. I have recorded for the Harmonia Mundi company AND played in numerous festivals involving well known performers. As a result of my searching for the true meaning and emotional possibilities in music I came into contact with Bhagwan Shree Rajneesh and his teachings have opened new doors for exploring the wonderful world of music. I feel now that I can communicate on a higher level with my audience and present the public with an optimal evenings entertainment.

I have read many books by Bhagwan Shree Rajneesh and above all I have had many occasions to meet many of his Sannyasins. I have found these disciples to be polite, informative and above all loving people. Throughout the world amongst musicians and artists Bhagwan's works

and teachings are known for ~~their~~ ^{There} clear
and practical suggestions involving peoples
relations towards themselves and others.

I am proud that my HOMETLAND has
become the coice of this wonderful man
and I am sure that the entire
UNITED STATES will profit from the
clear philosophies AND upstanding work
ethic projected from him and his follow

Yours Truly
Anthony Thomas
