To whom it may concern:

I am a medical technical representative for the University of Calif. of Los Angeles, a mother of a person committed to a utopian society. Because of this commitment and the high goals I have for myself and as a citizen of this country, I am writing in open support of Bhagwan Shree Rajneesh's continued stay in the U.S. He is a person, through his books & tapes, shows how to create a utopian - peaceful and loving - society. His influence on his followers show them how to love and be themselves. This kind of exceptional ability as a leader is something this country is hungry for and one of the beliefs it was founded on. Therefore, I wholeheartedly support Bhagwan Shree Rajneesh's residence in our country.

Sincerely,
Yolanda Lebarton
