Rotterdam, July 21<sup>th</sup> 1983.

To whom it may concern,

The undersigned C.J.B. Blankers declares the following:

During the last three years I have been in several sannyas-communes in Belgium, Germany and Holland. I became very impressed and interested in what happened in those places. I could feel the inspiration of Bhagwan Shree Rajneesh in the way the sannyasins are working in creating a new man.

Also I went to Rajneeshpuram to participate in the celebration. During that time I was amazed in seeing what the possibilities are when people work together in a positive way. Totally free and objective I could look around and see the progress in Bhagwan's work.

My experience is that in Holland a lot of people feel the influence of Bhagwan and enjoy his work for humanity. As a non-sannyasin I feel that it is very important that this enlightened Master can continue His work in your country.

A living Master like Bhagwan with his exceptional abilities needs to get the opportunity to get a permission to stay in an open country like the United States.

C.J.B. Blankers
