Steiner - Weitem  
July 20<sup>th</sup> 1966

To whom it may concern,  
my name is Heiner Bremer, I am 31 years old and since more than two years working as a medical doctor in a little hospital near Basel, Switzerland.

I got to know Bhagwan Shree Rajneesh meditation and books five years ago.

After a few years thinking, hesitating and trying I decided to become a sannyasin, a disciple of Bhagwan, years ago.

Now I feel more and more that this decision was very right and important for me.

For me Bhagwan is a door  
to myself to help me in  
my process of discovering myself  
and live ~~in~~ on the whole, to do  
little small steps in understanding  
the mystery of life in a very  
positive yes-saying way, to under-  
stand the religious ground of the  
existence including myself.

For me the atmosphere, the  
fluidum, the energy that is sent  
out from Bhagwan is very lovingful.  
I feel, Bhagwan can help me to  
open the door to my innermost being.  
And this experience can lead me

to the feeling of freedom and acceptance of my person and flowing out of that to accept and to respect the different ways and personalities of other persons.

To accept myself and others, to learn this is for me the most important message coming from Bhagwan.

I think that Bhagwan's decision to stay in the USA, in Oregon has a lot to do with the similarity of this message and of the original character of America, the character of freedom and tolerance, that I could feel more in the USA than in Europe.

Please don't throw out this man out of your country.

Please let him stay around  
his friends and as well disciples.

Please, concerning me and a lot  
of other people all over the world,  
let us have the chance to visit  
him in the surroundings we got  
to know in Oregon, sometimes.

Please, let your tolerance win.

I remain with this hope.
