Dear Rinzai,

It is my pleasure to take this time to express some of my feeling regarding the man who calls himself Bhagwan Shree Rajneesh.

I wish he lived across the street in Los Angeles or better yet on my block. I have found his teaching most valuable and timeless. He makes me think deeply and realize the simplicity of my deep thinking.

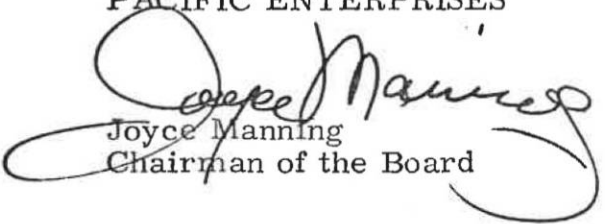

It would be wonderful if he decides to speak again as I would like to see his energy back into his teaching and finish with the bull---- as to where he lives.

We are the luckest people in the World that Bhagwan is in the United States and if we were wise we would give him Government Grants as we do with Dr. Jona Sulk.

Both are needed in our World.

Sincerely,

PACIFIC ENTERPRISES
