July 24, 1983

To Whom it May Concern,

I am an Artist  
and Lecturer at Newcastle College of  
Advanced Education, Australia. As a  
Artist I have received favourable mention  
from a Nationally recognized Art Critic  
Donald Brooke in the newspaper. My  
work is represented in various collections.  
As well I will be listed in the latest  
Directory of Artists.

My special research  
area for academic lecturing is Structure  
and architectonic morphology with regard  
to symbolism in oriental religion and  
philosophy. This interest led me to the  
writings and teachings of Bhagwan Sri  
Rajneesh. It is my professional opinion that  
this man has the greatest insight into  
~~this area~~ Oriental Religion than any  
other writer that I have come across  
in many years of reading on the subject.

Although not a  
follower this interest has led me to  
visit Rajneeshpuram to see this man and  
his great social experiment. I was very  
impressed to see how well everything was  
and on hearing that he may be deported  
moved to write this letter to ask that I  
be permitted to stay in this Great Country  
Yours faithfully J. H. G.
