

July 20, 1983

To whom it may concern,

This letter is to share with you a vision, my vision & the vision of many, the dream of living in harmony with nature, with other human beings, & in peace with oneself. It's a dream many have tried to realize that somehow has never quite worked. And it's happening now in Central Oregon, in the city of Raynesapuram, because of the presence of Bhagwan Shree Rayneesh, an incredible being who has the same vision & the ability to make it happen.

When I gather daily with my "family" & friends to catch a glimpse as he drives by everything else stops. For those few moments each day each of us takes the time to look inside, pause & be nourish by His presence. Sitting with him four times a year, I watch our family grow. I see faces from the past, sometimes unrecognizable because of the years that have dropped & the new joy dancing in their eyes.

I watch my young daughter walk without fear, relate without fear. If she's crying there's 1000 familiar faces to calm her. If she's ill she'll be cared for, again by familiar faces, & I can be reached in minutes. Haven't you wished the same for your loved ones? But only by putting our trust in Bhagwan can such a dream come true.

I am grateful that it is my country which has the possibilities for such a dream to unfold. India

was too primitive, Europe too crowded. America has the intelligence the technology & the heart. Don't miss this opportunity.

For those not directly involved it might be hard, even frightening, to stay open to this great venture & allow it to bloom. Especially with the continual negative implications focused on us by the newspapers. But coming here for a first hand look at a miracle, a dancing, singing city, there need be no fear. For you too can have a taste of this gift. His name is Bhagwan Shree Rajneesh & he is beyond any doubt the most remarkable man alive on the planet today.

Love,  
Ma Prem Sharden
