To whom it may concern:

I am a faculty member of the University of British Columbia and of the Vancouver General Hospital. My field is nutrition, with a special interest in fitness and stress-reduction.

I am writing to you concerning the immigration status of Bhagwan Shree Rajneesh, and to support his continued stay in the United States.

This man has attracted admiration and respect from all parts of the world, not only for the brilliance and beauty of his writings, but also for his ability to help people outgrow their limitations - jealousy, greed, violence.

The community growing in Oregon is a miracle in this stress-filled world: a place where people are living together in harmony, productivity and joy.

Rajneesh has a unique ability to inspire alternative life styles which will be a model for man's future development in a most positive way. I sincerely hope that he will be allowed to remain in the United States.

Sincerely yours

Vasant L Crawford
