

To whom it may concern.

When having been a yoga-teacher for 7 years I came in contact with Bhagwan Shree Rajneesh in 1977 and since that time he has been a source of inspiration and knowledge in my personal life as well as in my profession. I was able to learn not only by reading his books and listening to his taped lectures, but also by hearing him speak, answer questions and give discourses.

In these discourses he focussed on psychology in such a way, that my experience in working with people grew tremendously.

Bhagwan has such an extraordinary insight in human nature, that Holland would be benefitted by having him within her borders.

Having visited last years' as well as this years' Festival in Rajneeshpuram has given me so much new insights and so much inspiration in regard to my work, that I'd like to express my sincere hope, that Bhagwan Shree Rajneesh will be permitted to stay in the U.S.A.

Sincerely yours,

Ma Anand Para.
