To whom it may concern,

Remember the joy you felt laughing at a joke with friends? A perfect moment with someone you love? The perfection of a sunset? Bring the warmth of such memories to mind and you will have an idea of my love for Bhagwan Shree Rajneesh.

I was first attracted to his followers, who had a remarkable zest and energy that was beautiful. I wanted to know what this was, this quality shared by a diverse and intelligent group of people. And I wanted some of that energy for myself. That led to books and meditations. I had fun. I was delighted. I jumped into sannyas.

Since then I have changed my attitude towards work. Instead of intellectualising, depending on the books, I trust myself and work from my heart. So many times my patients have commented on that certain something in me, and I think it's what I first noticed in his followers.

I have been a seeker for a long time. I went to school and now have a B.A. in Art History (Montreal, Concordia University 1971) and an R.N. (nurse) [Montreal, Dawson College 1981]. Now I can relax. I found what I was looking for in Bhagwan Shree Rajneesh.

I think America can only benefit from his presence. The arid landscape of Rajneeshpuram is blooming like an oasis. Receiving medical care there is like going to a friend - one who gives excellent allopathic healthcare as well as, it seems, a wink and a nod from the Master.

Yours Truly,  
Ma Deva Anandi  
Judith Grive B.A., R.N.
