

Copenhagen, July 18th 1983

To whom it may concern.

My name is Erik Rosell. I am working at A.P. Moeller steamship company as a computer system programmer. I am educated in computer science from the University of Copenhagen.

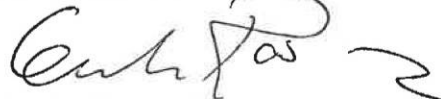

Personally, I consider Bhagwan as one of the most important persons for me, and I hope he will get his opportunity to work for peace and love between people from his ashram in Oregon in the United States of America, the country which is world famous for its tolerance to religious movements, and the country where individualities can flower.

His influence to my personal habits as well as my job has been tremendous. Since I began listening to him, my relationships to other people have changed in such a way that things just succeed.

On a regular basis I do his meditations, read his books, and listen to his tapes.

Even I am not a sannyasin, he has become a part of my life.

Best wishes from

Erik Rosell
