To whom it may concern:

I am writing a letter about my experience as a disciple of Bhagwan Shree Rajneesh.

I became a disciple of Bhagwan in 1980 when he was still speaking and I loved to listen to him and still love to read his books. He spoke about every spiritual subject you can think of, all that can be expressed in words has been expressed by him.

In 1981 the ultimate phase of his work began which means he is now communicating with us in silence. He is sharing his joy, his love, his truth with us, there is no need for any word because love and truth have nothing to do with words, it can only be experienced.

I have been visiting Rajneeshpuram this summer and last summer and have been totally impressed how harmonious and loving the people live together there. I've never experienced such a peaceful and joyful commune. This is only possible because of His presence. All His positivity, all His love you can feel in His disciples. Being together with Him just means that you start realizing the problems you are creating yourself and which are not really existing, you start realizing that there are so many situations in life when you can be just happy and enjoy. Whenever I saw him passing by on his daily drive I just felt filled with His positive joyful energy. He is sharing with us.

You can be thankful that such an outrageous man who is able to change people only through His presence and his silence is living in your country.

Sincerely yours

Ma Sagar
