To Whom It May Concern:

I want to express how Bhagwan Shree Rajneesh has helped me in my profession as well as my personal life.

I have been working for 17 years in Electronics, including 3 years at the Universite du Quebec as a Computer specialist in the Psychology Laboratory.

The research there was on Relaxation and Meditation techniques. Since I was also personally involved in the research, I experienced all sorts of techniques, including Bhagwan's meditation techniques, which turned out to be the most efficient ones.

By increasing my contact with Bhagwan, my personal understanding of my work and other activities increased a lot.

Not only the efficiency of my work has increased, but also my joy in doing any kind of work. I clearly recognise that Bhagwan has helped me to get to a point of much more clarity and understanding of my life, and it is very clear that he is a man of exceptional abilities.

His presence in America is certainly of an immense help to all professionals. What happened to me can also happen to many other professionals allowing immense growth in the scientific world.

Truly yours,

Michel Bisson
