To whom it may concern:

I am a practical nurse. I did my studies in Switzerland in a school recognized by the Red Cross. I have practiced my profession in different hospitals for 8 years.

Because of my profession I am in daily contact with life and death, which posed a thousand questions for me.

In the meantime I met some sannyasins who enabled me to discover Bhagwan Shree Rajneesh. I was quickly convinced that Bhagwan Shree Rajneesh was the only person that could bring me all that I was looking for. Firstly by his presence and then by responding to all these questions that I had. Afterward my attitude in my profession completely changed.

In knowing Bhagwan Shree Rajneesh I experienced his wisdom and his enormous intelligence. Bhagwan Shree Rajneesh is my religious master and I feel infinitely grateful when I am in his presence.

Sincerely,

Ma Dakshina
