To whom it may concern,

My profession, was an art teacher to children between the ages of 5 yrs to 14 yrs old. I taught at the Jewish Center of the Hamptons, In East Hampton, N.Y.

I became a disciple of Bhagwan Shree Rajneesh in March, 1978. and continued to teach at this center till 1981.

The flavor of my work changed enormously after being with Bhagwan. Bhagwan Shree Rajneesh teaches to celebrate life and put one hundred percent of yourself into each part of you life. This allowed me to open more to the children I was teaching. I enjoyed my work much more that the years before.

The religious center I taught in received many compliments on my work from the parents and the children.

Through Bhagwans, books, tapes, meditations
and now his silence I've gained more
of myself and have expanded my abilities.

In my opinion, Bhagwan Shree Rajneesh
is a man of exceptional abilities,
the communication I have with him now,
through silence, is deeper and richer than
ever before.

His contribution to this world cannot
be measured any anyone can see the
assets of this mans to this country and
the world. He is truly an extraordinary
man. We should be proud he is
here with us.

Sincerely
Ma Prem Dassano
