

Sw. Prem Dipamo
305 S. Baton St.
Toronto, Ontario
CANADA

To whom it may concern,

I am an artist; stained glass is the major medium in which I work. I attended the university of York in the city of Toronto majoring in sociology for three years. Even though my grades were above average I felt dissatisfied with life and could not continue with my studies. Since then I had many jobs, but was unable to make a commitment to any of these. In 1981 I heard a discourse tape by Bhagwan Shree Rajneesh and for the first time in my life I felt inspired, both in a spiritual and a creative sense.

Since becoming a disciple of Bhagwan I have become a very successful artist in Toronto producing art windows for some of the most beautiful homes in that city.

I credit Bhagwan with the inspiration for both my art and my sense of business which makes me successful in a very competitive field.

Since Bhagwan has come to the U.S.A. I have visited the ranch three times, each time feeling a great energy while in his presence even without saying anything, he radiates a power that for me is full of creativity. And upon returning home from my visits with Bhagwan I use the feelings and energy I receive while participating in his commune to create my finest art.

Sincerely

Sw. Prem Dipamo
