Raidar

To whom it may concern,

I'm a supervisor for construction and studied at MIT
Worldwide, I studied and worked in the field of
architecture for more than 15 years.

I came in contact with Bhagavan through the
comodation of a psychotherapist in 1988.

Attending a meditation camp and practicing Bhagavan's
meditation techniques started to change my life.

Being "technical minded" my being with Bhagavan
added a whole new dimension to my life.

His physical presence gives me the strength to reach

new heights in my creativity, at the same time

I feel the total support of his whole community.

Since Bhagavan is in silence my contact with
him is focused on a heart to heart connection.

Sincerely

Ma Prem Surood
