To whom it may concern:

I'm writing in support of Bhagwan Shree Rajneesh gaining permanent resident status in the United States.

As a disciple and student of his philosophy, I can vouch for his tremendous contribution in the world of psychology and psychotherapy.

In all my years of working as a psychotherapist I never came across such a revolutionary thinker where most therapies skim the surface, Bhagwan Shree Rajneesh goes to the very roots of the human predicament.

His understanding, his humor, his love and silence have touched me deeply and in turn

I can convey all this in my work with people

Do not deny America the opportunity to be enriched by such a rare and profound being.

Sincerely,

Sw. Anand Narresh
