B.A. in Psychology - University of the Pacific, Stockton, Ca.
M.A. in Psychology - University Northeastern, Boston, Ma.

Former staff psychologist at Stockton State Hospital, Stockton, Ca., and at Fernald State School for the Retarded in Waltham, Ma. Research assistant at Eunice Kennedy Shriver Center, Waltham, Ma.

Currently working as a psychologist in private practice, and professor of the Graduate School of the State University of Rio de Janeiro, Brazil. Starting work in a Doctorate Program in Psychology.

To whom it may concern:

I first heard about Bhagwan Shree Rajneesh from friends in December, 1981. Although I have never been very interested in Eastern philosophy I began to read his books (The Psychology of the Esoteric, I am the Gate, The Mustard Seed). At the same time I began to do Kundalini Meditation, and my whole life began to take a different perspective.

In February I saw Bhagwan at a video-tape, and a few days later I asked for sannyas. I have always been very pragmatic and never practiced any kind of religion, and Bhagwan showed me that there is more to life and man than the material world.

It is hard to explain the impact He had in my life. He gave me a greater understanding of my self as a person in this concrete world (the "market" as He call it), and as a being in the universe. This in turned made me more aware of people's essence and changed dramatically my work.

Bhagwan's techniques of meditation are also very useful for people with a series of problems, and I recommed them to my clients, as well as His spiritual teachings.

It was a great honor to me, as well as a pleasure to be in Bhagwan's Presence last year at Rajneeshpuram, Oregon, and I hope He stays in this Country, so I will be able to return at the end of the year.

If I can be of any help, please feel free to contact me.

sincerely

Jesam Jlet, M.A.
