Dear Madam,

My name is Dr. Paul Störck, born on the 12th September 1923 in Vienna, Austria. I am the Chairman of the managing board of the Österreichischer Genossenschaftsverband (Schulze-Delitzsch), the confederation of the co-operatives in Austria.

I became acquainted with the movement of the BHAGWAN SHREE RAJNEESH about 2 years ago through friends of mine und have seen their activities in the local meditation center. In this period I also became acquainted with people who want to help other people in conversations and meditation work.

As far as read the books of Bhagwan Shree, he is open for all the world religions of high value, especially for the Christianity, and teaches mutual understanding in tolerance and charity with assistance of the meditation techniques, developed by him.

I think in this age with the necessity of efficient efforts for peace are his activities of high value and therefore I would like to support his application for prolongation of his residence- and work-permit in the United States (federal state Oregon) or to give him the chance for a permanent residence.

Yours faithfully,
Dr. Paul Störck
