TO WHOM IT MAY CONCERN.

Achievements in civilization , of which USA , is proud , stem from its laws of human liberties including FREEDOM OF RELIGION.

I am suprised , USA , a country renowned for its relentless contribution in the persuit of human happiness should refuse residence to Bhagwan Shree Rajneesh .

Bhagwan's spritual guidance has given a totally new dimension to thousands in the persuit of happiness and the realization of the best in the individual. In the ultimate analysis, it is the human happiness that will lead to world peace , not the elusive dogmas.

Ever since I have known Bhagwan and his works, my out-look in life has assumed a deeper sense of love and compassion towards humanity.

I will be very disappointed if USA does not grant appropriate visa to Bhagwan Shree Rajneesh .

SWAMI HARIDEVA BHARTI.
