To Whom It May Concern:

I am a midwestern housewife who has benefitted greatly from the writings of the Bhagwan. If the world would pay attention we would not have to live in fear or concern ourselves with the nuclear arms race.

This man has much to teach us, and we should use him instead of trying to get rid of him.

As a member of Menca, a Life Master in the American Contract Bridge League, a former board member of Menorah Hospital auxiliary, I implore our country to take advantage of his teachings.

Donna Lee Suckin
