ANTWERP, 18 JULY 1983

Sir,

During the last 20 years I was leading
5 business Companies in Belgium: Housing, building villas
and fermettes "old style" and many land developments.
All these businesses were very successful.

In 1980 I discovered Baghwan Shree Rajneesh through
1 of his 500 books, about readings and answers on questions. Reading
this first book I felt like reborn like new, it was the truth, that is to
I felt deep imprints, I continued studying his books and followed to
things at the International Institute for Meditation. In 3 years time
I studied medicine and was Graduate in Rebalancing techniques.
My life and way of living completely changed, I feel this moment
in harmony with people I am happy and fortunate to have this great
opportunity to study and to work with Baghwan Shree Rajneesh.
Who is a living enlightened master. It is the greatest person I ever met.
He realized everything, his authority is worldwide. He brought
happiness in my family and a new way of living. Please let him live
his life in America - Oregon. His health is becoming better and
better, the climate there is ideal for his health.

Yours sincerely
