to whom it may concern:

Re: BHAGWAN Shree RAJNEE

There is a well known statement
"Physician. First Know + Heal thyself -
before you can really + truly help others

this is what Bhagwan. does for
many physicians - to those open to
his message he gives contentment
understanding + peace. with which
to aid the many in need -

He is indeed a tremendous
help - to the youth of this count
showing them the happiness that
is within themselves, without the
aid of drugs - etc He is needed
here in America now -
Helen Grady Cole
