To whom it may concern

I am an insurance-consultant working in L.A. area.
I happened to come across a couple of books from Bhagwan
Shree Rajneesh. This man is for sure a great spiritual
teacher who has to contribute a lot to our present society.
I am concerned about the situation as such.

Around Bhagwan Shree Rajneesh something very significant
is happening. These people simply get together and built
a city in only one year. The work that has been done since
last year at Rajneeshpuram is incredible!

Bhagwan Shree Rajneesh is not only an outstanding spiritual
teacher, his followers also know how to built a city in
one year.

This potential man and his followers should be welcomed
in Amerika.

I made a brief visit to Rajneeshpuram and found very nice
and happy people trying to live in tune with nature and
themselves.

Sincerely, yours

W. Svoboda
