Dear Latifa,

My name is Swami Anand Madhav (Jan Moller)
I am a medical doctor, now working at
the Radiology-department in the University-Hospital
here in Trondheim, Norway. (I also work privately
an acupuncturist).

I am 29 years old. I grew up here in Norway, &
after high school I started traveling and trying
out different jobs. I studied psychology for a year
here in Norway, and then medicine in the
U.S. and Germany - where I graduated 1 1/2 years
My first contact with Bhagwan was a tape-lecture
I heard in Germany. 2 years later I went to
Poona and became his disciple in March 1981.

Bhagwan is to me an enlightend Master
like Buddha, Muhammed, Christ and all other
Masters that has lived. He is a living "proof" of
that Truth which they all have talked about
that Truth wich we all are seeking.
I love Bhagwan.

Swami Anand Madhav
