To whom it may concern ,

Since my youth , I always have loved America , and several times already I stayed on vacation in your country .

So , I was extremely astonished that Bhagwan Shree Rasjnees should not be allowed to stay in the U.S.A. .

He became my religious master since 4 years and my love and respect for him increases more and more . His books are a continuous source for me , and lots of friends begin too to appreciate him as an outstanding man in this time , after their contact with him through me . We all can't imagine that your attitude towards this man should be negative .

Says the " Library Journal " ( USA ) in april 1982 :  
" Bhagwan's position as an important mystic and philosopher is supported by an international following and a host of publications . His work is that of all great religious leaders : bringing God to men . "

May I ask you to consider this case 100 % and to accept Him as a religious teacher as America did several times in the past .

Yours sincerely ,

M. Vergotte-zaakvoerder ( director )
